EDUCATION

University of Maryland — **College Park, MD**
Robert H. Smith School of Business — Bachelor of Science, Finance

PROFESSIONAL EXPERIENCE

JPMorgan Chase — **Chicago, IL**
Product Analyst — *August 2025 - Present*

- Reduced escalations by 30% by spearheading an efficiency initiative for JPMorgan's internal platform Navigator, developing a solution that cut case resolution time and enabled client service representatives to proactively address client issues.
- Cut iteration cycles by 15% by building an agentic testing platform using self-learning agents that simulate investment banker feedback across varying roles and seniority, eliminating dependency on infrequent access to IB stakeholders

Bank of America Merrill Lynch — **Boston, MA**
Wealth Management Summer Analyst — *June 2024 - August 2024*

- Researched the energy transition with a focus on nuclear energy, providing detailed insights on government bills, deals with Big Tech, and lack of high-assay low-enriched uranium production in the United States to support a financial advisor
- Accelerated annual fee review process from two days to five minutes for 600+ clients by utilizing pivot tables

Atlantic Union Bank — **Richmond, VA**
Treasury Management Summer Analyst — *May 2023 - August 2023*

- Recovered $100,000 in lost monthly revenue by performing an audit for treasury products, utilizing XAA and Horizon XE
- Created a standardized monthly report for 13 treasury management officers showcasing existing and prospective clientele

Smith Investment Fund — **College Park, MD**
Research Associate — *October 2022 - December 2024*

- Crafted 5 shallow dives on companies in the consumer industry by considering sales in all product categories, evaluating key financial metrics, and determining whether the company met the team's investment quota
- Authored a 12-page equity research report on SBUX by highlighting their beverage innovation and vertically integrated supply chain as main thesis points and built an IRR analysis to estimate investment profitability

Office of Career Services — **College Park, MD**
Manager — *February 2022 - December 2024*

- Delegated shifts to student workers ensuring clear communications to efficiently optimize the $70,000 annual payroll budget
- Managed 15 student workers to bridge the gap between management and employees by verifying employer information is effectively circulated, guaranteeing smooth and timely office operations

Personal Startups — **Glen Allen, VA**
Oakmont Emporium LLC (Co-Owner) — *August 2023 - January 2025*

- Generated $40,000+ in revenue and 1,300+ unit sales by launching an Amazon storefront specializing in beauty and collectible items

Kicks_ByJJ (Founder) — *June 2019 - January 2023*

- Founded an e-commerce business that identifies, buys, and sells hundreds of pairs of limited-edition sneakers annually
- Netted $105,000+ in revenue by scaling the business internationally through a client network and trade relations, exchanging $5,000+ in physical goods and $30,000+ in product procurement

PROJECTS

Tennis Vision — *March 2026 - Present*

- Built real-time tennis analysis system using RF-DETR, Supervision, and VitPose for player detection, tracking, and pose estimation; rendered a synthetic 3D court with skeleton overlays and a top-down heatmap tracking player coverage

PolyMind — *February 2026 - April 2026*

- Developed a multi-agent LLM simulation engine where agents with distinct personalities debate and influence each other's opinions, modeling crowd dynamics to surface consensus patterns predictive of real-world outcomes
